NEWSTEAD QLD 4006

Andrew Graham  
Managing Director  
EPM Projects Pty Ltd

June 10, 2008

Dear Andrew

I wanted to take the opportunity to thank you and congratulate your team on the Project Management and consultancy they performed for Extend Technologies

Epm Projects was selected on a referral basis as the project manager for assistance in identifying and project management of the outfitting of our new Sydney office.

When we went to market to choose a Project Management Company for this project we shortlisted two companies. EPM were chosen on the basis of their personal approach and the clear demonstrated ability to provide the services we required.

Your team has more than lived up to our expectations and have delivered to Extend Technologies a fantastic office in a project that was delivered on time and on budget.

We put enormous pressure on you through late decisions taken on our part and you continued to meet all our time requirements and had us in the fantastic new offices on the original time line

EPM assessed what our needs and skills were during this process and matched your service to suit us.

Your team kept me informed on the progress of the project continuously and when decisions had to be made or hiccups encountered, they presented me with clear options and solutions to help with the decision process.

I have found your services to be very professional and would have no hesitation in recommending you to any future clients

Yours sincerely

Suellen Thompson  
General Manager Corporate Services
