Dear Andrew

This is just a quick note to thank event Project Management for managing our recent fit out.

As you know, the fit out was organised and completed within a miniscule timeframe (over Christmas/New Year no less). The options usually provided to clients in this type of situation is to choose either price, speed or quality. The expectation is that only two are ever achievable. For us, we feel we received all three. The fitout was completed by the due date, with quality finishings and all within the budget (it actually looks like we will come in under budget which is a bonus).

I feel that whilst our fit out compared to many event do would be considered small, having access to all the support and resources event has at hand played a large part in the success of the project.

The team event assembled to complete our project was a pleasure to deal with. They made us feel that our business was important and worth going the extra mile for. We really appreciated that and we look forward to working with you again the future.

Kindest regards

Craig Stanmore
