Dear Andrew

We would like to take this opportunity to express our sincere thanks on behalf of Christian City Church for the commitment and effort displayed by the team at **event** Project Management in meeting the needs of CCC and achieving the successful completion of our new Training and Prayer facility.

We appreciate that the project, and the timing for completion, posed some interesting challenges to **event** throughout construction, aspects that required flexibility, patience and understanding to be exercised by all parties. Despite the challenges, **event** continued to encourage, and maintain, the relationship between CCC and the Contractor.

As we have come to expect, **event** acted in the interests of CCC and continues to act in our interests, always remaining personable, contactable and reliable. We look forward to our continued relationship with the team at **event** and have no hesitation in recommending you to other potential clients.
