To Whom It May Concern,

It is with pleasure that I provide this reference for the EPM team.

Margaret Jurd College is a small special school for disadvantaged youth in Newcastle. EPM came highly recommended to the school at a time where we were seeking a solution for a building project that was ballooning in cost. Andrew Graham visited the site and in a brief walk around was able to find a solution that would not only allow the schools needs to be met but also reduce the overall cost to the school.

From that point the EPM team took over the project management of the build and not only saw the project through to a high standard of completion but ensured that we were on budget. Kathryn Cuno managed the project and demonstrated excellent knowledge and negotiation skills ensuring that the quality of the project was never compromised.

For me as Principal this meant that I could step back and allow EPM to be the experts on the ground, overseeing compliance and quality control with their eye on the bottom line at all times. The school is now moving into the second stage of the project and will retain EPM as our project managers. I cannot recommend their services highly enough and would encourage other schools to consider engaging EPM for their project management needs.
