Subject: Appreciation

Andrew,

I completed my final Board meeting at Margaret Jurd College yesterday! During the meeting the Building, Planning & Property Committee report detailed in glowing terms your creative advice / input regarding yet more options for the second stage of the College's building program.

As I depart from Margaret Jurd College I wanted to express my personal appreciation to you for the contribution you have made to the future of the College through both your own and EPM's contributions. I clearly remember that day when I called you in desperation for advice on the planning process and the incredibly swift response you provided ... I think you were on site within 24 hours! Since then EPM has been an excellent source of advice and indeed a partner in the planning & construction at the College. The new ideas you have presented appear to offer even greater flexibility for the College.

Over the many years that I have seen your work with other UCA schools and I have been impressed by your skills, expertise and great communication: with Margaret Jurd College your heart for education and support for disadvantaged students and the staff who work with them has been has been inspirational.

As I leave the College I express my deep personal thanks for all you have done.

Kind regards,

John
