To Whom It May Concern:

**Reference for EPM Projects**

This reference is provided in respect to EPM Projects Pty Ltd who are engaged by The Wayside Chapel as Project Managers of our new headquarters in Potts Point, Sydney.

EPM was appointed at a time when we knew what we wanted in our new building facilities, but weren't sure how to turn that into reality. EPM worked very closely with us to develop a comprehensive project delivery strategy and then executed the plan just as we had hoped.

EPM kept us fully informed at every stage of the project. They gave us confidence that they not only understood our needs, but also clearly demonstrated their understanding and expertise in managing design, approvals, tendering, construction, programming and cost control.

EPM assembled and led the entire team for what was is \$8.2 million building and refurbishment project, including all design consultants and contractors. If there were ever any issues, EPM handled them in a manner whereby we were always confident that our project would be a success.

EPM was professional while vigorously representing our interests.

Above all, EPM cared about Wayside and this was always evident.

A senior member of the building team in Stage One told me, toward the end of that phase of our development, that in the event that he had a personal building project, that he would "choose EPM because of their strong commitment to their clients." If I ever had to embark on such a programme again, my first phone call would be to EPM.

Yours faithfully

Rev Graham Long  
Pastor/CEO
