A Ministry of The
Uniting Church In
Australia

TO WHOM IT MAY CONCERN

It is again with pleasure that I provide an updated reference for the EPM Team

Margaret Jurd College is a small special school for disadvantaged youth in Newcastle. EPM came highly recommended to the school back in 2015 at a time when we were seeking a solution for a project that was ballooning in cost. At that time EPM provided a solution that allowed the school to progress with, and complete the project under the project management of EPM. The project was completed in 2016 to the highest standard of quality and in line with our budget constraints.

The confidence gained in EPM through the course of the 2016 project made it a simple decision for the school to engage EPM as its Project Manager for the 2nd stage of the masterplan. This 2nd project was completed in May 2018 and again the school has been impressed with the commitment EPM has shown in managing the elements of time, cost, and quality. As the school principal, I have every confidence in stepping back and allowing EPM to manage the process from planning approval, design development, tendering and engaging a contractor, and then administering the contract right through to completion of construction. Put simply, the school could not be happier.

I cannot recommend EPM's services highly enough and would encourage other schools to consider engaging EPM for their project management needs.

Yours Sincerely

Ross Coulton
Director
