

Pymble Ladies' College

20 March 2015

To Whom It May Concern

Re: Letter of Endorsement

I have had the pleasure of working closely with epm Projects on the construction of the largest capital works project Pymble Ladies' College has undertaken. The \$34M Centenary Precinct project comprises an indoor aquatic centre, learn-to-swim pool, fitness centre, car park and playing field and is scheduled to open early 2016.

Since epm Projects were selected as the College's preferred Project Manager in 2013 they have provided significant support, expertise and outcomes which have been greatly valued by the College and myself. The team has clearly demonstrated experience within the independent school sector as well as in other aquatic centre projects and this has provided great quantitative and qualitative value.

As a result of their outstanding work on the Centenary Precinct, the College has engaged epm on a number of other smaller projects which have also been extremely well managed.

I would have no hesitation in recommending epm Projects.

Yours sincerely
